DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jungyon Shin on August 14, 2006.

The application has been amended as follows:

Claims 97, 98, 102-107 are **CANCELLED**.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: No prior art of record disclosed or reasonable suggest non-crosslinked polyolefin foams comprising two polymeric components with one polymeric components being a Ziegler-Natta catalyzed LLDPE and the other components of a different second polyolefin, where the foam has a density **substantially the same** as the density of a foam obtained from 100% of the second polyolefin foamed at the same conditions as the claimed foam, or methods for production of such foams. Note that the claimed term "Ziegler-Natta catalyzed linear low density polyolefin is interpreted as LLDPE, since neither the examiner, nor the applicants' representative is aware of existence of any other linear low density polyolefin (other than polyethylene) as conventionally known in the art, and

the specification provides no disclosure of any other polyolefins that may be read as the claimed first component .

JP1-240540 is interpreted as disclosing foams containing predominant amount of LLDPE, which does not produce foams of the same density as the second component.

JP4-59840 is directed to crosslinked foams, and the Nguen article discloses blended foams with higher density than the second component.

None other references of record disclose uncrosslinked foams where the LLDPE is either have the claimed MFI and polydispersity or/and where the foam has a density **substantially the same** as the density of a foam obtained from 100% of the second polyolefin foamed at the same conditions as the claimed foam

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irina S. Zemel whose telephone number is (571)272-0577. The examiner can normally be reached on Monday-Friday 9-5.
